

# Aesthetic Body Design Appointment Policies

Cancellation Policy: 24-HOUR NOTICE REQUIRED.

For any appointments cancelled with less than 24-hour notice, a \$100.00 (One-Hundred USD) fee per service scheduled will be assessed to your account in order to reschedule or the session will count as a lost session. Please be advised you cannot be seen until the fee is paid in full. Late cancellations or no-shows of new client consultations will also be charged a \$100 fee in order to be rebooked.

No-shows will forfeit your missed services and be considered a lost session. No-shows are also counted if the appointment is cancelled after the scheduled appointment time has commenced. Late arrival to appointments will shorten treatment time, as each session is based on number of minutes allotted for treatment.

Your esthetician and/or bodysculpt technologist is assigned to you according to the appointment time you have requested. We book appointments according to availability and cannot accommodate requests for particular estheticians and bodysculpt technologists.

Aesthetic Body Design and our staff pride ourselves on ensuring low cost treatments and that all of our patients are seen on time, without any unnecessary wait times typically experienced with other esthetic facilities. To accomplish this, we rely on our clients' commitment to keeping the appointments they have scheduled for their convenience.

To ensure you are seen promptly at your desired time, we strictly avoid any overbooking.

Aesthetic Body Design's pricing and specials are carefully calculated upon our clients' abilities to keep the appointment times they have committed to.

An automated text message and email will be sent to remind you of your appointment time one day in-advance. Therefore, please notify us 24-hours in advance if you cannot keep your appointment so we have the opportunity to schedule another client within your appointment time.
